

Juan Esteban Sepulveda

SOFTWARE DEVELOPER/DATA ANALYST

Medellín, Colombia | 3137430720 | sepesteban01@gmail.com

Professional Profile

I specialize in designing innovative software solutions for managing and analyzing data flows. My focus is on thoroughly understanding business requirements to provide data-driven solutions that drive strategic decision-making and meet operational needs.

I possess advanced skills in a wide range of tools and technologies, including Python, Git, Knime, SQL, and Power BI. This allows me to tackle complex challenges and transform large volumes of data into actionable insights. My ability to work in dynamic environments and my commitment to excellence have enabled me to contribute significantly to the teams I've worked with, optimizing processes and improving outcomes.

Experience

Data Analyst Intern, Tigo Colombia

07/2023 – 01/2024

- Development, testing and support of various ETL processes using tools such as Knime and Python with frameworks like Pandas, Numpy, Matplotlib, and Seaborn.
- Management SQL Server databases for analytics, ensuring quality and performance.
- Development of data engineering algorithms.
- Management of Linux servers.

Education

Degree in Systems Analysis and Software Development, SENA

2022 - 2024

Skills & Knowledge

- **Technical skills:** Python | Pandas | Numpy | Matplotlib | Seaborn
Sql | Mysql | MSSQL | Linux | C# | .NET | ASP.NET
- **Soft Skills:** Teamwork | Organization and adaptability | Decision-making
- **Software:** Excel | PowerBI | Word | PowerPoint | Knime | Airflow
- **Languages:** Spanish - Native | English – B2
